

Jasmine Williams is pleased to present her new picture book for kids. This easy reading book for children contains fun facts about some of the bugs and insects that we see in our everyday living. This delightful picture book for children, from about 4-10, contains discussions of the most common bugs and insects in our surroundings like the butterflies. This contains wonderful graphic images to accompany the story. It offers interesting facts, in simple language, and although appropriate for all these ages for the 4 year olds to early second grade, probably, it will need to be viewed with a parent. Students will encounter new words and concepts. Theyll read more about bees, cockroaches, fireflies, ants, true bugs, etc. The images in the book are primarily color photographs that are stunning if read with a Kindle Fire or the Kindle Application on one of the tablet devices or the PC. Black and White readers will be also see them clearly but will just miss the added dimension available with color. Children will also find answers to kid-style questions. â€¢ What is the classification of a butterfly? An insect or a bug? â€¢ Are ladybugs belong to the family of bugs? Teachers and home schooling parents will find this book a wonderful addition to their nonfiction libraries. It provides selected passages on an assortment of subjects. Great illustrations bring the text to life.

Paleo Breakfasts (Quick N Easy Paleo), Hunting for the Pot/Fishing for the Pan, Career Choices: A Guide for Teens and Young Adults : Who Am I What Do I Want How Do I Get It, Letters from Jamaica ; the land of streams and woods, Where You All From... A Cookbook, Secrets of Wing Chun for Selfmastery: The Secrets of Wing Chun for Self Mastery contains new translations of the original Wing Chun Poetry and all ... explained in a clear and understandable way., Puntos de partida (Student Edition + Listening Comprehension Audiocassette), His Majestys Well-Beloved An Episode in the Life of Mr. Thomas Betteron as told by His Friend John Honeywood,
