

HOW TO CHOOSE A CAREER: Some errors can be very costly, missing it in the choice of a career is no less gruesome. If you are going to commit your time, energy, skills and assets to a career, you cannot be too careful as to what career choice is most befitting. Making a career choice is a very important life decision and it is in the light of this truth that this book was written. Are you just starting out and wondering what kind of jobs would best suit you? Perhaps you already work at a job and are looking to change it or to see if changing careers would work for you... Or maybe your reasons are something else entirely... How would you like a career guide designed and written to help you choose that specific career offering great benefits? I believe you are a button click away from finding out just what kind of book this is. If you have ever seen a victim of bad career choice you will have an idea just what value you stand to get with this book. This book does not make hard assumptions about you or your inclinations but lays out in simple detailed forms the things you should avoid and the exact things you should insist must be present in your choice of a career. This book will expose you to profound truths about making career choices which you otherwise may never have known. Like an expert advisor you will be taken through eight different filters that will weed out career options that are both a waste of your time and are likely to destroy you. You will be able to pass as many career options as you want through the chapters in this book to pick out the most promising so that you can obtain great benefits. The book was written to be compact, easy to read and understand, so you will not waste much time trying to comprehend it.
