

Available in VHS or on CD-ROM, this extraordinarily comprehensive, five-part series of 20 videos has been designed to assist viewers in preparing for the new, 2001 A+ certification exam. Topics addressed span the spectrum, from number systems and electronics fundamentals through preventative maintenance, basic troubleshooting techniques, networking, and Windows 2000. The product is also a useful lecture supplement to any course in PC Repair, Maintenance and Upgrading. Each 20-minute tape features numerous component demonstrations, step-by-step techniques, plus professional-quality graphics and animations to illustrate concepts and aid in retention of essential information. Easy-to-understand terminology, plus clear and concise explanations of complex concepts, is also used to help guide viewers to success in obtaining an internationally recognized credential and launching their careers as computer service technicians.
