

This book forms part of a unique, highly practical and time-saving three volume presentation of the Building Regulations, each book covering all the regulations relating to specific building usage. The chapters of each volume form self-contained units covering all the Regulation requirements applicable to a particular part of a building; thus the reader can ensure that all the Regulations are fully met. Also included is a digest of published standards, guides and technical information as well as reviews of the new Eurocodes currently being introduced. The Building Acts and Regulations Applied: Shops, Offices and Factories covers all the regulations relating to commercial premises. It is a useful course companion for BTEC HNC/D and degree courses in building, architecture, surveying, estate management and other built environment disciplines. It is also an ideal reference source for all professionals working in these areas.
